## Energy Conservation Policy

### 1. Scope of the Policy

The policies and initiatives for the conservation of energy, environment and green campus activities will develop a positive attitude towards nature and will create challenge for protecting our resources amongst the prospective teachers and students. Being the future nation builders of the society, the student and teachers are expected to disseminate the same to the young generations of the institution through various activities.

### 2. Objectives of the Policy

1. To become self-reliant in energy, one should depend on Renewable Sources, i.e. Solar Energy, Wind Energy, Biomass, Geothermal, and Water.
2. To make student teachers understand the importance of environment and its problem areas.
3. To educate student teachers to create awareness amongst public.
4. To work with the local community to enhance the environment protection practices and energy conservation strategies among the rural community.
5. To protect and conserve ecological systems and resources within and outside the campus.

### 3. The College of Education is committed to maximize energy conservation procedures through various measures.

1. Form a committee to monitor and check wastage of energy in the campus.
2. Conduct Green Audit once in a year.
3. Maintain the Energy needs of the campus with back-up power supply system for supplying uninterrupted energy demands.
4. Establishment of energy efficient utilization measures in the supply, demand systems as part of energy management of the campus.
5. Replacement of the existing conventional lighting with the LED lamps.
6. Monitor the electricity bills for the efficient utilization of solar power plant installed in the campus.

7. Create awareness among the students and staff in energy conservation and management by the Eco-club of the college.
8. Encourage students and staff to be energy efficient by encouraging vehicle pooling and use of bicycles.
9. Organizing expert lectures in the area of energy conservation.
10. The Institute shall continuously review and update the approved policy and is committed to its implementation.
11. Solar panels were installed on the roof top of the college building to minimize the use of non-renewable source of energy.
12. Awareness Programmes including energy campaigns and measures for energy conservation procedures for sustainable development is disseminated in the community as a practice.
13. Directions are given to students are given for the proper utilization of the electronic devices in the institution. Ensures all the institutional electronics are turned off when not in use.
14. Reduce e-waste to maximum with proper maintenance, before moving on Replace & Recycle stage.
15. Use of energy efficient, star labelled equipment's for various purposes.
16. Students and faculty members are given adequate training for energy audit procedures for sustainable institutional and household energy conservation.
